

Traceability Update

Alberta Goat Association Convention

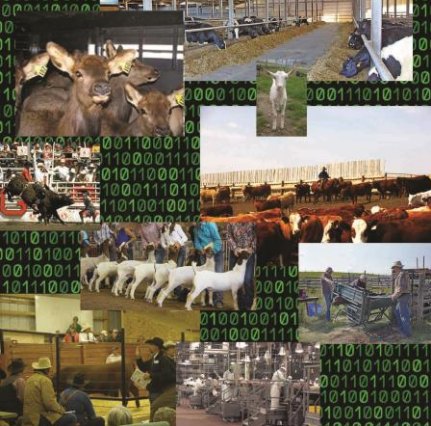

October 27, 2018

ANNE BRUNET-BURGESS
GENERAL MANAGER, CCIA

Today's objectives

- **To sort out “who does what”**
- **To provide you an update on the expected proposed regulations amendments**
- **To help you prepare.**

Players and their Responsibilities

- **Canadian Food Inspection Agency (CFIA)**

Regulator, enforcer of regulations and manages sanitary issues.

- **Agriculture and Agri-Food Canada (AAFC)**

Sets policy on federal programs to position industry for growth and sustainability.

Provides financial and administrative support to assist industry to implement their traceability plans.

- **Provincial and Territorial Governments (AB)**

Identification of sites where livestock are kept.

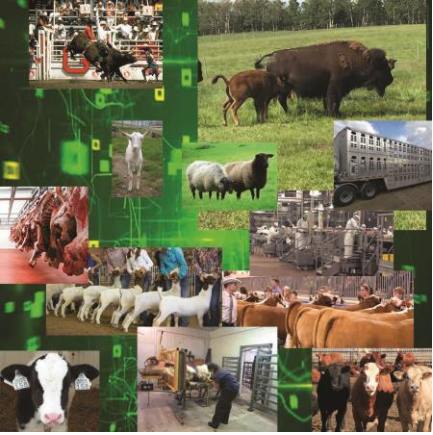

Implemented provincially through regulations, voluntarily and through cross compliance.

Provincial traceability regulations, i.e. age verification in Alberta

- **Responsible Administrators (CCIA)**

Industry-led, not-for-profit organizations that manage regulated traceability data on behalf of CFIA.

Recommend the approval of animal indicators and communicate regulatory requirements and traceability benefits to industry. There are two other Responsible Administrators in Canada.

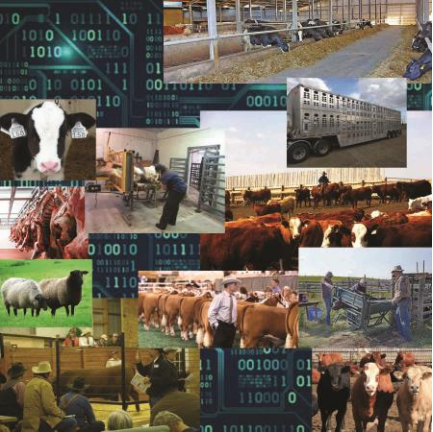

Who is the Canadian Cattle Identification Agency (CCIA)?

Responsible Administrator:

A not-for-profit, industry-initiated and led organization incorporated to establish a national livestock identification program and traceability initiatives to support efficient trace back and containment of serious animal health and food safety concerns.

Canadian Livestock Tracking System (CLTS):

The CLTS database allows producers to record tag information pertaining to the three pillars of traceability (i.e., animal identification, premises identification and movement), as well as value-added information (e.g., age verification).

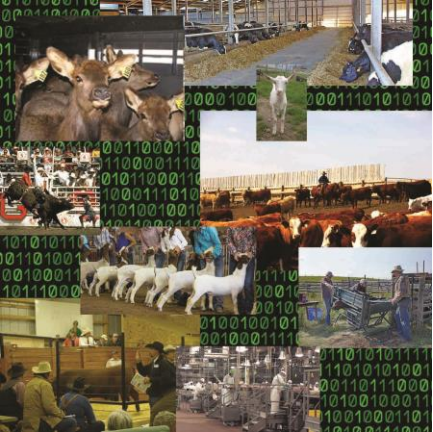

CCIA: Your Responsible Administrator

Our vision:

To be a world-class leader in livestock traceability to allow our industry to reach its maximum potential.

Our mission statement:

To provide leadership and secure, cost-effective traceability services to the livestock industry while fostering strategic partnerships and developing innovative solutions that will enhance the Canadian livestock industry.

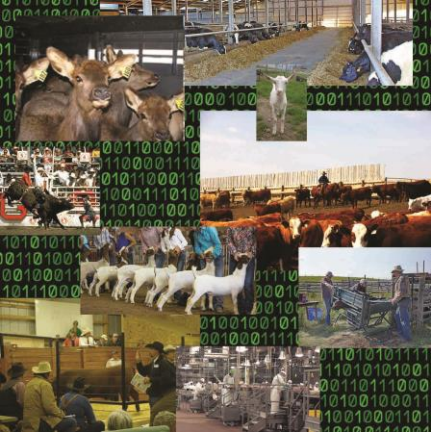

The agency is led by a Board of Directors representing 16 industry associations from all sectors of the livestock industry in Canada.

CCIA: The decision makers

MEMBER ORGANIZATIONS

Alberta Beef Producers	Canadian Meat Council
Alberta Cattle Feeders' Assn.	Canadian Veterinary Medical Association
Beef Farmers of Ontario	Livestock Markets Association of Canada
B.C. Cattlemen's Assn.	Canadian Livestock Dealer's Assn.
Manitoba Beef Producers	
Les producteurs de bovins du Québec	Canadian Sheep Federation
Saskatchewan Stock Growers Assn.	Canadian Bison Association
Maritime Beef Council	Dairy Farmers of Canada
Canadian Cattlemen's Assn.	Canadian National Goat Federation
Canadian Beef Breeds Council (associate)	Canadian Cervid Alliance

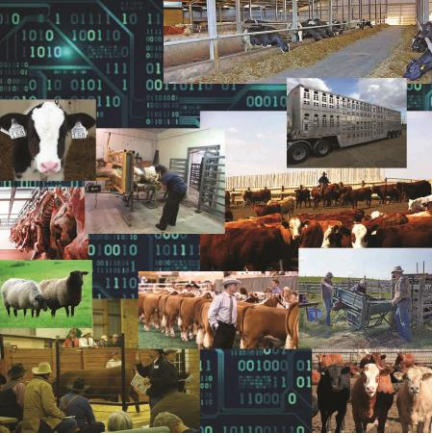

CCIA: The team

Headquarters in Calgary, Alberta

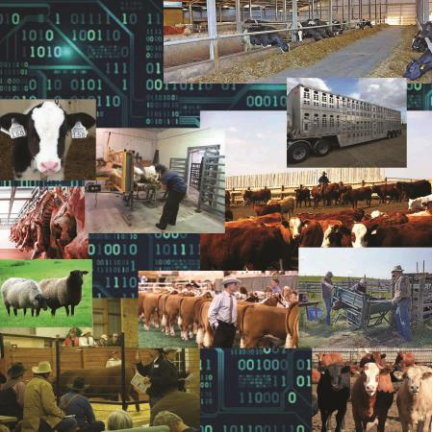

General Manager

- Client Support Representatives (6)
- Information Technology (6)
- Communication and Field Staff (5)
- Finances / Administrative Support (3)
- Animal Indicator Specialist (1)
- In-house counsel (1)

Traceability

Why? What? When?

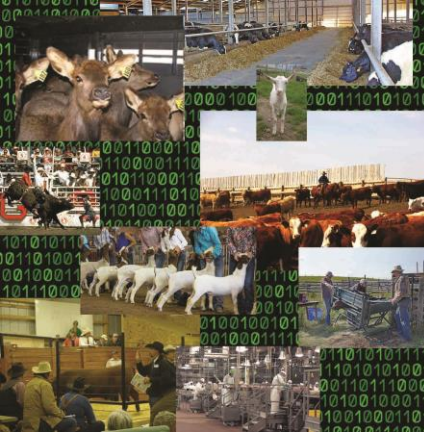

Traceability / Why?

Objectives

The objective of the livestock traceability system is to provide timely, accurate and relevant information to reduce the impacts of a disease outbreak, food safety issue or natural disasters originating from and /or affecting livestock.

Effective traceability can better protect public health and support industry market access, competitiveness and consumer confidence.

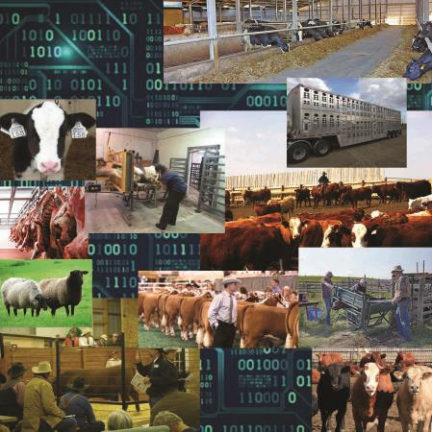

TRACEABILITY / HOW?

Animal Identification: Goats will have to have an approved **indicator** when they leave the premises where they are kept.

Premises Identification: PID numbers will be used to specify the site of **departure** and **destination**. It is also anticipated that a PID number will be needed to **purchase animal indicators**.

Reporting of Animal Movement:

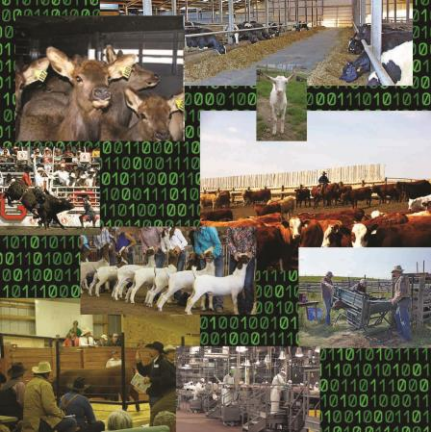

The document could be **your provincial manifest**, an **electronic form** on your phone, a **paper template**, others...

Proposed Amendments: Movement Document

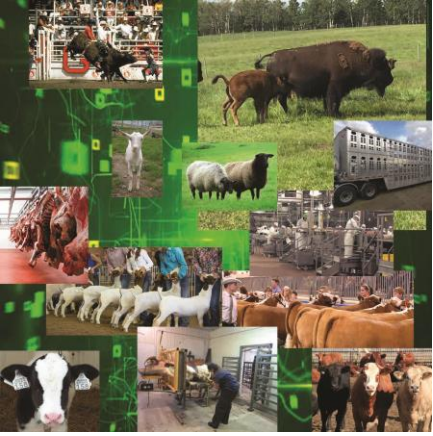

Movement document would accompany each load leaving the farm operation with the following information:

- **PID for departure and destination sites**
- **Date and time animals/carcasses left the site**
- **Species and number of animals/carcasses**
- **Licence plate or other ID of conveyance**

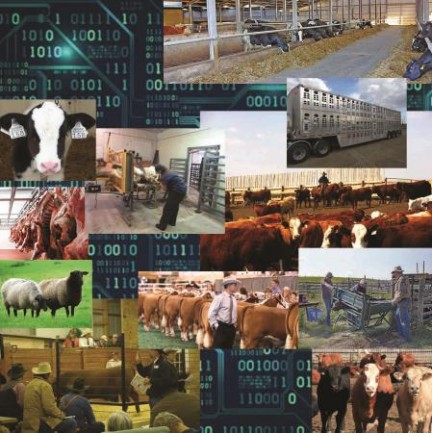

Proposed Amendments: Movement Document

- **Movement reporting would occur at the destination site when animals are received:**
 - **Including individual indicator numbers**
 - **Some exemptions: Auction markets, assembly yards, community pastures**
 - **Movement within the same farm would not be required to be reported**
- **Reporting to the responsible administrator would be required within 7 days**

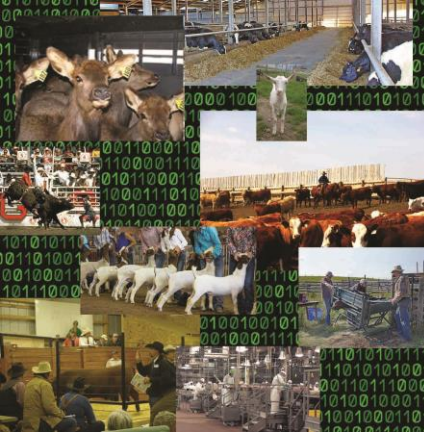

Expected Timeline

- **Draft regulations publication in Canada Gazette, Part 1 targeted for Spring 2019**
- **75 days public comment period, followed by review (up to 12 months)**
- **Canada Gazette, Part 2 (in force) in 2020**

PROPOSED REGULATORY AMENDMENTS

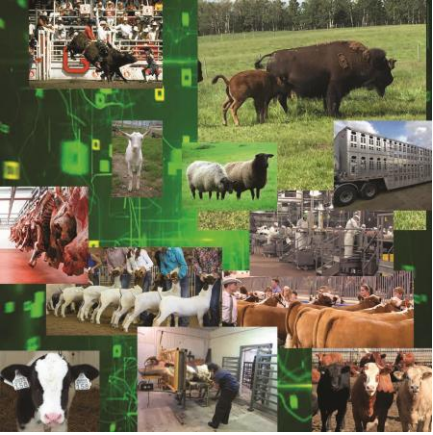

How to Prepare

How to prepare: Get a PID

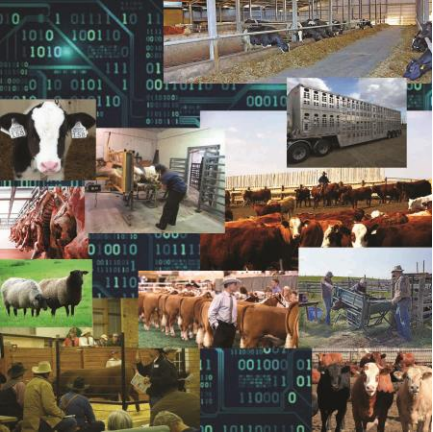

Premises Identification

- Get one or multiple;
- Keep your contact information current
 - PID account: Provincial governments
 - CLTS account: CCIA
